Either a call or a click away!

We are an innovative supplier of PPE, abatement supplies, safety, industrial, environmental, and emergency services equipment and...

...we care about your experience with our company!

Our goal is to make your order process easy by stocking quality products, fast, same day shipping on most orders, competitive pricing, and our commitment to service.

We believe our company is an extension of your company. We go the extra mile to help you become successful!

Our dedication to you, our customer, is to provide the right products, at the right cost, at the right time.

Our shipping is to anywhere in the United States

and surrounding countries. We ship UPS and we are located in West Chester, PA, positioning ourselves to service the northeast corridor with our own fleet of delivery trucks

We offer over 20,000 products having access to all major manufacturers and suppliers including: Kimberly Clark, MSA, 3M, Eagle, Uvex, Howard Leight, Dupont, Best, and many more.

We market our company's products through direct sales reps, customer service reps, direct mail campaigns and e-commerce web site.

Air Filtration - Neg. Air Machines

Air Filtration - Neg. Air Machines

Aeroclean 400 CFM Negative Air Mover

For The Small Areas.

This unit was created in 2000 by the request of contractors that required a small unit for the tightest/smallest of areas. Made from aircraft grade aluminum for reduced weight.

Aeroclean 500 CFM Negative Air Mover

Variable Speed.

This unit is growing in popularity for it's fan speed switch, which allows the contractor to determine the speed and amount of air being filtered.

Aeroclean 600 CFM Negative Air Mover

2004 Air Scrubber of the Year

Aerospace had a hard time keeping up with demand for this unit. Almost 700 CFM on high speed allows this small unit to be handled by one person... A TREMENDOUS BARGAIN! Made from aircraft grade aluminum for reduced weight.. Not available in casters.

Aeroclean 1800 CFM Negative Air Mover

Slim unit for those hard to squeeze areas!

The 1800 is only 18" wide but still produces over 1800 cubic feet per minute. This unit has been increasing in popularity year after year. Made from aircraft grade aluminum for reduced weight.

Aeroclean 2000 CFM 'ECONO' Negative Air Mover

"ECONO" The Original Air Scrubber

The original unit manufactured in 1981. It all started with this unit, duplicated by many, but we are proud of the "ECONO's" history. Made from aircraft grade aluminum for reduced weight.

Novair F2100 CFM 12" Vacuum Port

- Powerful 2HP motor generates exceptional, consistent flow rate and utilizes all filter media area
- 2 speed motor-provides consistent air flow of 2000cfm (high speed) and 1000cfm (low speed)
- 8 point motor/cage mounting prevents motor and cage shifting under the harshest conditions
- One of the lightest 2000cfm units on the market is easily transported by 2 operators
- Positive lock filter prevents filter movement for uninterrupted filtration
- Seamless construction guarantees leak proof operation
- Uses standard 24" x 24" H.E.P.A. filters, rated 99.97% efficiency against 0.3 micron particles
- General Purpose Filters & Audible Alarms are also available
- · Custom controls & features available upon request

- Powerful 3/4HP motor generates exceptional, consistent flow rate and utilizes all filter media area
- 2 speed motor-provides consistent air flow of 1000cfm (high speed) and 500cfm (low speed)
- 8 point motor/cage mounting prevents motor and cage shifting under the harshest conditions
- Seamless construction guarantees leak proof operation
- Lightweight design with incorporated skids allow for easy and safe transport
- Positive lock filter prevents filter movement for uninterrupted filtration
- Uses standard 16" x 16" H.E.P.A. filters
- General Purpose Filters & Audible Alarms are also available

Decontamination

Decontamination

Disposable 3 Stage Decontamination Shower - 38" x 38"

Low-cost, durable and disposable decontamination solution for abatement projects.

This shower system eliminates the hassle of constructing a decontamination facility on small, short duration projects. Sets up quickly to easily reduce your labor costs. It is the first all poly constructed unit, which means it can withstand the daily rigors of abatement projects without losing any structural integrity. Each 3-stage configuration is also available in fire retardant polyethylene construction.

- All units meet OSHA and EPA guidelines for decontamination facilities.
- These units are made from two lavers of 6-mil poly and have triple-flap ingress/egress doorways, 38" x 38"
- Available in six different configurations, from the basic 3-stage unit to an extra large 3-stage unit, a 2-chamber clean room and equipment room unit for use with pop-up style metal showers.

Poles, drain water pick-ups and shower nozzle hardware are reusable and available separately.

 No Hazardous Chemicals
 - Environmentally Friendly

Vacuum Packed Colored Rags

For job site clean up and ideal for absorbing the heavy mastic removal jobs.

A very large bag of rags vacuum sealed bags to ensure you get a large quantity of rags per bag. The rags are recycled clothing and are generally quite strong making them ideal for cleaning away oil and grease etc. Ideal for mechanics.

CHM0150 MastaSorb

MS1010 10 lbs. MS1025 25 lbs. MS1045 50 lbs.

SpillTech Medium Weight Oil Pad 18"x15"

White 100/bale - Pads quickly absorb oil for effective cleanup of petroleum-based spills on land or water, protecting the environment from contamination. Absorbs Oily Liquids — Repels Water. Oily grunge can't hide on bright white.

Universal Absorbent Pads - 17" x 15"- Gray

Gray Universal Rag Rugs are made from recycled fibers. Pound for pound and dollar for dollar, it offers one of the most absorbent products anywhere. It is constructed from a single layer of natural and synthetic fibers that is then carefully needle-punched and heat set. 40 lb. bag.

SpillTech Absorbent Boom 5"x10' White 4/bale

Boom applications include: ditches, streams, retention ponds and waterways. Will not absorb water. 100% polypropylene will not deteriorate. Metal clips allow fastening together for multiple boom applications.

Pump Sprayers

Versatile sprayers ideal for spraying the wetting agent or encapsulant.

Performance and price make these sprayers excellent values. Handheld sprayer provide high quality without the high price tag. Gaskets stand up to heavy-duty use and provide leak-resistant connections and long life. Sprayer features a commercial-grade, anti-drip shutoff valve with large paddle grip and easy-to-clean filter. Tank cap has a built-in pressure-relief valve that sends liquids and air away from the opening when released.

Includes a long wand to provide the extra length you need for jobs that may be otherwise out of reach.

44x60 Glove Bags Single Glove Bags

25 bags per roll

Single-use glovebags for repair and maintenance.

44x60 Glove Bags Extended Run

25 bags per roll

The basic Extended-Run glovebag. This economy model has all the features of the Available line except the entry ports. Enclose pipe diameters up to 8" in runs of 6' to 91' of horizontal pipe. Each of the 25 chambers measures 44" x 60" allowing you to cut of as many or as few as you need. One arm set per chamber, stocked in 6 mil, available in 10 mil special order.

60x72 Glove Bags Extended Run

20 bags per roll

The workhorse for extended-runs of large diameter pipe. Encloses pipe diameters up to 14", and can safely contain anywhere from 8' to 100' of horizontal pipe. Each of the 20 chambers measure 60" x 72", allowing you to cut off as few or as many as you need. One arm set per chamber, stocked in 6 mil and available in 10 mil special order.

72x120 Glove Bags Extended Run

10 bags per rol

The standard, single-use glove bag that revolutionized the industry with labor saving features. Smart design details such as quick attach collars, HEPA/water entry ports, Fiber Guard glove sleeves and arm openings placed so the weight of debris doesn't rest on the worker make these bags

the choice of abatement professionals.

DUST CONTROL

Standard Zipper #DC0215

Put a doorway anywhere on your

ZipWall® Standard zipper. Remove

paper backing and stick the zipper

to the barrier. The Standard Zipper is

great for interior barriers where the

temperature is above 55 degrees.

barrier using the self adhesive

Zippers

Window Shield

Use WINDOW SHIELD to protect against over-sprays, mortar stains, stucco residue and more! With WINDOW SHIELD there is no more scraping and cleaning or damage to the glass surface. Protect your windows and glass with WINDOW SHIELD and save time, labor and money.

Shoe Covers

Carpet Shield®

Protect your floor or carpet from dirt, scuffs, and heel marks with our slip-on SHOE COVERS. Easy to use shoe covers are perfect for general construction work, open houses, as well as during inspections. Shoe covers are lightweight and disposable. One size fits all.

Carpet Shield® **Applicator**

For even easier application... try the original multi-use applicator which can be used for three different roll widths (24", 30" and 36"). This applicator makes large area commercial jobs quick and

24" x 200'

36" x 200'

Clear, self adhering protective film for all types of carpeting. Formulated adhesive system adheres to all carpet substrates. Special blend of polyethylene is highly resistant to tears or punctures. Reverse wound for easy application. New added solvent technology to go with only approved water based adhesive system for wool

Clean Step Pad 36x46 30 shts/pad, 8 pads/box

Clean Mat is a polyethelyne film mat with a tacky surface that removes dust and dirt from footwear and prevents it from being tracked. Clean Mat stays firmly in place and is easy to use and dispose of. (Note: Does not adhere to carpet surfaces.)

MS3025-24X

MS3025-36X

- · Protects against dirt and bacterial pollution
- Adhesive coated surface attracts and contains dust and dirt

- Disposable, effective and economical
- Simply peel off a used sheet to expose a fresh one
- Backing helps to prevent pads from foot damage

Ram Board

Ram Board is a heavy-duty, temporary floor protection engineered for Contractors. Designed with cost and efficiency in mind; it lays out fast and is re-usable. Ram Board is non-staining and utilizes it's Flex-Fiber™ technology allowing for the curing of new floors on jobsites. It provides the perfect solution when protecting new or existing concrete, wood, tile, stone, linoleum, vinyl composition tile (vct), epoxy, and most other floor types. In terms of floor protectors, we are #1 in the construction world!

- · Prevent breached containments by providing positive support.
- Poly hangers save time and labor by making quick work of building containments or dust protection barriers

Metal Poly Hanger #1 -**#TT0168**

Supports one or more layers of poly in front of walls. Hanger 1 slips behind wall molding and is supported by the vertical leg of the molding. Hanger 1 will also support poly in front of masonry or paneling by nailing into a joint which can be easily patched after tear down.

Metal Poly Hanger #2 -#TT0173

Supports one or more layers of poly in front of walls. Hanger 2 clips over the horizontal leg of acoustic ceiling wall molding. The prong makes hanging poly faster and ensures it will stay up during the length of the job.

· Eliminate damage and cleanup costs caused by tape and glue adhesives.

Plastic Poly Hanger #3 -#TT0170

Supports poly from ceiling grid and other overhead objects. Poly is installed over the pin and is held in place by a removable retainer. Hanger 3 supports poly both horizontally and vertically for building full containments, connecting tunnels, dust curtains, and temporary protection barriers.

Plastic Poly Hanger #4 -#TT0172

Supports poly from many building components. Hanger 4 includes a 10" releasable cable tie so it can attach to roofing joists, pipes, and other objects. See instructions for other fastening options.

SLP 2-Pack

The SLP2 comes with two of our Spring Loaded Poles and is great when you need a bunch of poles for a big job. The SLP™ pole has the spring loaded plunger built right into the pole, yet the SLP™ pole weighs in at just over a pound and a half, extending 4' 9" to 12'.

4 ZipPole™ steel Spring Loaded Poles, a head,

plate, tether, and GripDisk™ for each pole, a

Zippers. Plastic sheeting is not included.

heavy duty Carry Bag, and a box of 2 Standard

- 2 Spring loaded poles
 2 Tethers
- 2 Grip disks

4-Pack

4 SLPs

• 4 Grip Disks

• 1 Carry bag

2-Tie strings to support openings

Instruction sheet

2-7' self-adhesive zippers

Heavy Duty Zipper #DC0216

Makes an easy doorway through plastic barriers, has a greater adhesive area allowing for an aggressive tack. Comes with the ZipWall® zipper knife™ sheeting cutter and has the smoothest glide available and engineered with large sturdy easy-slide teeth. Made with 2-sided pulls for easy entry/exit to or from the barrier

• 2 Seven foot Zippers Zipper Knife

4-Pack Plus

Includes four poles, enough to build a barrier in many configurations, plus 2 Foam Rail™ cross bars to seal straight across the ceiling without marring it. Includes Carry Bag large enough to accommodate up to 8 more poles or Foam Rails.

- 4 SLPs
- 2 ZipWall standard

2 ZipWall standard

- 2 Foam Rail cross bars zippers
- 4 Grip Disks
 - 1 Carry bag

#DC0612

SLP 6-Pack

The SLP6 comes with six of our Spring Loaded Poles and is great when you need a bunch of poles for a big job. It's also an economical way to add SLP™ poles to your ZipWall® system.

- 6 Spring loaded poles
- 6 Grip disks
- 6 Tethers

#DC0211

Kit 20

The Kit 20 package is ideal for any job with a ceiling height from 6 feet 9 inches to 21 feet. Just try putting up a 20 foot high barrier using a step ladder, it's impossible. But with the ZipWall® Kit 20 poles, you can have a tight barrier up in just minutes without your feet ever leaving the ground.

- 2-20 foot extension poles 2-Grip disks 2-Spring-loaded jacks

Miscellaneous

Side Clamps #DC0202

Never damage another wall. With the ZipWall® Side Clamp and Foam Rail, you can create a tight seal without tape. The Side Clamp™ wall mount snaps onto the Foam Rail™ cross bar and then pushes the plastic against the wall to create a dust tight edge. It's a crazy looking tool but it's quick and easy to use.

Grip Disks #DC0203

The GripDisk™ was developed to meet the need for a product that would keep the ZipWall® pole securely in place when contractors contend with a slick and slippery work site floor, such as highly polished wood or marble. The Grip Disk™ is a non-skid, rubberized disk that holds the pole tightly in place against the floor surface.

• 2 Grip Disks

Carry Bag #DC0220

This durable and attractive bag is designed to hold all your ZipWall® products. It is made of rugged polyester and has plenty of room for standard SLP™ poles, Kit 20 poles Foam Rail™ cross bars, Side Clamp™ wall mounts, or any combination of ZipWall® products. It can hold the equivalent of 12 SLP™ poles.

- · Made of tough polyester Keeps all your barrier products
- organized and easy to transport

 Holds the 20 foot pole and the red jack unattached

Dustless Wet/Dry Vacuum - # VD0810

This Wet Dry Vacuum is specifically designed for the fine dust created by grinding, sanding and sawing from diamond wheels and abrasive products.

One of the big advantages of the Dustless HEPA Wet/Dry Vacuum is the optional Wunderbag™ Micro Prefilter that greatly extends the life of the HEPA filter. The Wunderbag™ is an inexpensive disposable filter that captures the vast majority of the dirt and dust before it reaches the more expensive HEPA filter. In fact, the Wunderbag™ captures particles down to .5 microns. That's remarkably close to the HEPA filter that captures particles down to .3 microns. We highly recommend contractors use a Wunderbag™ in the HEPA Vacuum to extend the life of the more valuable HEPA filter. The Dustless HEPA Wet/Dry Vacuum gives you a distinct advantage by enabling you to switch from dry to wet operation without worrying about getting the valuable HEPA filter wet. A protective baffle/wall inside the canister, protects the HEPA filter from water at all times. The Wunderbag™ also retains its strength when wet, unlike other bag pre-filters, which is a huge advantage when switching between wet and dry operation.

- Powerful 23,000 RPM 11.5 amp electric motor
- Quiet operation, only 81 decibels
- 16 gallon capacity
- High impact tank for years of trouble free use
- Patented filter system provides three layers of filtration
- Optional micro pre-filter captures down to .5 microns
- Clean filters without opening canister
- Filters may be cleaned without removing the lid
- No need to change the filter when switching from a dry to wet (the filters never get wet).
- Does not cough dust when Wet/ Dry Vacuum is turned on
- Primary and secondary filters are machine washable synthetic fabric
- Tools store easily on the Wet/Dry Vacuum
- Suction hose can be used for draining tank

POVER CHEVI MASTIC & ADHESIVE REMOVERS

MANUFACTURER SAFETY DATA SHEETS (MSDS) ARE AVAILABLE ON OUR WEBSITE AT WW.THESAFETYHOUSE.COM

PowerChem 325 Low Odor Mastic Remover

Our most popular mastic remover... fast acting, high performance, low odor and priced right. Designed for quick removal of asphaltic floor tile mastics, spray adhesives and glues.

PowerChem Soy 320 Mastic Remover

Powerful, natural based adhesive remover with a high flash point. More aggressive and lower evaporation rate than other soy product on the market... Bean-e-Doo...

PowerChem 335 Low Odor Plus Mastic Remover

More powerful and faster acting than our 325 Low Odor. Designed for quick removal of asphaltic floor tile mastics, spray adhesives and glues.

PowerChem 375 No Odor Mastic Remover

Use in occupied areas where chemical smells are a concern. Dissolves most floor tile mastics, spray adhesives and glues and emulsifies upon rinsing to aid in its removal.

PowerChem 395 Extreme Mastic Remover

Our strongest mastic remover. Liquifies mastic in minutes. Perfect for a demolition job. Only use in unoccupied areas where smells are not a concern.

PowerChem Citrus Blend 350 Mastic Remover

Fast-acting, power of citrus. Combines affordability, high solvency and fresh scent. Highly effective on mastics, spray adhesives, oils, tars and asphalts. Emulsifies upon rinsing.

All of the Safetyhouse.com's powerful mastic removers are available in 55 gallon drums. Makes large scale projects easier to do because of the convenience of the quantity and the cost and time savings associated with purchasing a drum compared to the 5 gallon size.

Peel Away® 1

Removes Up To 32 Layers Of Paint In A Single Application NO FUMES AND NO FLAMMABLE SOLVENTS. The System includes a paste that is spread or sprayed over the surface to be stripped and then covered with a fibrous laminated paper with controls evaporation, and is left on until all of the paint is dissolved for easy collection of the waste. The laminated paper is then removed with the bulk of the paste and paint adhering to it and the stripped surface is washed clean and neutralized. PEEL AWAY® 1 works best when oil/ lead based paint is the prime coating on the surface.

Coverage is 15-20 sq. feet per gallon. Peel Away Neuralizer now included.

PEEL AWAY® 1 is especially suited for the removal of lead based paint.

Peel Away® 7

Specifically Formulated To Remove High Strength Chemically Resistant Coatings

Environmentally safe paint remover for resistant coatings i.e. epoxies, urethanes, chlorinated rubber, elastomeric, aluminum, vinyl's, mastics automobile paints and marine coatings. There is NO methylene chloride or caustic or any other flammable solvent in the product. PEEL **AWAY®** 7 has been used on large industrial applications to remove epoxy and urethane coats from metal and masonry surfaces including marine and aerospace. PEEL AWAY® 7 can be used with or without the PEEL

Peel Away® ST-1

AWAY® paper.

Specifically Formulated To Remove Lead Based Paint from Steel Structures

PEEL AWAY® ST-1 has been specifically formulated for removal of lead based paint from steel structures such as tanks, bridges and structural members. PEEL AWAY® ST-1 is similar to PEEL AWAY® 1 however its self-sealing characteristic allows it to continue working in a moist environment without requiring any PEEL AWAY® cover. Coverage is 20 sq . feet per gallon.

Peel Away® Lead Stop

Creates a tough surface to withstand impact and abrasion.

Lead Stop protects the existing lead painted surfaces from further deterioration. It has been specifically formulated to resist cracking from impact, surface movement and age. Lead Stop will provide long-term protection from the dangers of lead paint.

- Easy to Use: Apply, Let dry and Paint Over Lead Based Paint.
- Seals and Effectively Blocks In Lead Paint
- Long Lasting Barrier Over Lead Based Paints

Peel Away® Paper

This paint removal cover can be used with all Peel Away paint removal products to cover paint removers.

Encapsulating Lead

Paint Protects Children

Old Lead Paint Peeling

Lead Paint Encapsulation

Seal of Approval by D.L.

Litter Laboratories

Eliminates Danger of

Peel Away Paper is a fiber laminated paper that protects passersby from accidental contact and reduces evaporation of the remover. The peel away paper enhances and extends dwell time. This product covers approximately 33 square feet.

#CHS0535

SmartStrip

STRIP AWAY 15 LAYERS OF PAINT IN 1 APPLICATION!

Smart Strip™ Paint Remover

Smart Strip™ is a revolutionary paint remover that is safe for the user, the substrate and the environment. 100% biodegradable, water-based paint stripper effective for removing multiple layers of architectural and industrial coatings from virtually all interior/ exterior surfaces - wood, brick, metal, concrete, stone, plaster, fiberglass, etc. and does not contain methylene chloride, any caustics, or toxic chemicals. Odor free, safe for the environment. Exceptional for the safe removal of lead based paint.

CHS0540 Smart Strip-1 qt. Smart Strip-1 gal.

Smart Strip™ Aerosol Acrylic Paint Stripper

Effective acrylic paint remover that does not contain toxic chemicals, methylene chloride, or dangerous caustics. It is 100% biodegradable and safe. Will not burn your skin and is a water-based formula that works to removes multiple layers of all kinds of paints and coatings in one single #CHS0542 application.

SmartStrip PRO

Smart Strip™ Paint Remover Pro

SMART STRIP PRO is a professional strength paint remover that effectively removes Architectural, Industrial and Lead Paints. It is formulated without methylene chloride and is non-carcinogenic, non-caustic and non-flammable. Superior performance professionals require when removing even the most difficult coatings. This water-based stripper effectively removes multiple coats of varnish, oil-based, water-based, acrylic, urethane, epoxy, elastomeric and lead paints from any interior or exterior surface – wood,

brick, stone, concrete, plaster, metal, fiberglass, plastic, glass, etc. Because it is a paste, it is easily applied by brush, roller or conventional airless spray and is formulated to remain wet and effective without the use of Peel Away Paper. (For extended dwell times, Peel Away Paper may be necessary, particularly on Lead Abatement and Industrial projects.) Available only in 5 gallons.

Watch Dog

Watch Dog™ WIPE OUT **Porous Surface Graffiti Remover**

WIPE OUT Porous Surface Graffiti Remover - is a biodegradable graffiti remover specifically designed to remove heavy graffiti from all "porous" surfaces i.e. brick, mortar, cement, stucco, pavers and natural stone surfaces such as granite, marble, sandstone or brownstone. Its non-drip formula clings to the surface for fast maximum speed of removal.

1 gallon **CGR0503** gallon

#CHS0530

Watch Dog™ Lift Away **Aerosol Graffiti Remover 12oz**

Liftaway is a citrus based formulation that is biodegradable and environmentally safe. It has been designed specifically to simplify the graffiti removal process. This product will remove most types of graffiti and many stains from masonry, concrete, glass, terrazzo, metal and other surfaces usually in a fifteen-minute time frame. Coverage is 60-70 sq. feet per gallon.

PHOENIX RESTORATION FOLLIPMENT

#AM0711

Phoenix Guardian HEPA System™

- 2-Speed operation (1400-900 CFM)
- Multiple ducting options
- Built-in manometer
- Only 12 Amps

- Stainless steel cabinet
- Optional fourth stage carbon filter
- Wheeled cart design

Phoenix R175 LGR Dehumidifier

Compact Design, Big Performance!

The Phoenix R175 combines our Proven Performance into a compact, state of the art, roto-mold design. The R175 reflects all the ingenuity and engineering expertise that is expected in Phoenix name-brand equipment. Efficient design results in the R175 removing 30% more water (92 pints at AHAM) than competitive LGR units of similar size, while drawing only 6.1 Amps of power. The Phoenix reputation for performance is continued in the R175's excellent grain depression and operating range.

Phoenix R200 LGR Dehumidifier

Extra Large Capacity in a Small Package

The Phoenix R200 50Hz is a compact, energy efficient LGR dehumidifier that removes over 52 liters per day (AHAM) while drawing only 3.7 amps of electricity. The R200 50Hz outperforms the larger competitive dehumidifiers by removing more water, providing larger grain depression and consuming less power. The proven LGR design is surrounded by a durable roto-molded high impact plastic to create a dehumidifier that is smaller and lighter than competitive units.

Phoenix 200 MAX LGR Dehumidifier

The Phoenix 200 MAX is one of the most effective and versatile drying devices available on the market today.

The 200 MAX removes more water and has more grain depression than other refrigerant dehumidifiers, even though it only requires 7.4 Amps of electricity. When you combine this performance with the multiple ducting and air filtration options, it is easy to understand why the Phoenix 200 MAX is considered the ultimate in low grain refrigerant dehumidification.

Air Filtration - Dehumidifiers

Phoenix 200 HT LGR Dehumidifier

The Phoenix 200 HT is the ultimate in low grain refrigerant dehumidification and high temperature performance.

The 200 HT is the first LGR dehumidifier designed to maintain maximum water removal capacity through ambient conditions up to 120°F.

The Phoenix 200 HT, featuring its patent-pending technology, not only allows superior performance and greater CFMs in high ambient temperatures, but also exceeds the performance and efficiency of the original Phoenix 200 MAX under all conditions.

Phoenix 270 HTX Dehumidifier

The Phoenix 270HTx is one of the most effective and versatile drying devices available.

The Phoenix 270HTx features more water removal (161 pints per day@AHAM) and higher grain depression than other refrigerant dehumidifiers, while drawing only 8.9 Amps of electricity.

The 270HTx features Phoenix's patented bypass design, which is now enhanced to compensate for temperature automatically. By sensing and adjusting to temperature changes in the drying chamber, the 270HTx maximizes water removal over an extended operating range without the need for manual adjustments.

Phoenix 300 LGR Dehumidifier

The Phoenix 300 Dehumidifier is designed to maximize the water removal capacity from a single 110-V, 15-amp circuit.

The multiple ducting options on the Phoenix 300 allows for ducting both the intake air and the filtered and dehumidified supply air. This makes it possible to easily combine the Phoenix 300 with a HEPA air scrubber, air conditioner or desiccant dehumidifier.

Air Filtration - Dehumidifiers

DRIEAZ

Evolution® LGR

Low Grain Refrigerant Dehumidifier

The Evolution packs state-of-the-art low grain refrigerant (LGR) technology into a compact design. Built for today's trained restoration professional, the Evolution also encompasses the most user-friendly features. So versatile and easy to handle that you'll want to use it on every job!

- LGR technology boosts effective operating range
- Compact size only 92 pounds
- Draws only 5 amps but
- removes up to 70 pints/day • New, rigid fold-down handle

DrizAir® 1200

#AM0015

#AM0016

#AM0014

The Classic Refrigerant Dehumidifier

The rotomolded polyethylene housing is dent resistant, offers superior durability, and helps to protect furnishings when in use. Stack up to two units high for storage. A rigid handle and semi-pneumatic wheels ensure easy transport and maneuverability.

- Removes up to 15 gallons a day
- Super convenient size
- Hot-gas bypass for fast defrost
- Rugged rotomolded housing - stackable!
- Electronic touch-pad controls

EnviroBoss™ EB1400

Take Charge of Any Environment.

Now you can effectively tackle temperature and humidity problems with a single unit: the EB1400. Use it for cooling, dehumidifying, supplemental heat or air exchange. With interchangeable 8 in. ducts, the EB1400 makes

- Take charge of any environment.
- 1 ton cooling effectiveness with 470 CFM
- Dehumidification, focused heating and air exchange.
- · Ductable for spot cooling, directing conditioned air or warm air

DrizAir® LGR 2000

Low Grain Refrigerant Dehumidifier

Remove a lot of water and move less machine. Drawing on 20 years of design experience, Dri-Eaz utilized low grain refrigerant technology to pack more drying power into a convenient portable unit

- Up to 28 gallons a day
- Only 132 pounds
- Low grain refrigerant with patented heat pipe technology
- Rugged rotomolded housing
- Electronic touch-pad controls
- Semi-pneumatic wheels

DrizAir® LGR 2400

Powerful LGR performance in a portable package

For maximum water removal on commercial and residential water damage restoration, the DrizAir 2400 stands alone. It removes volumes of water in a wide variety of drying conditions. As a low grain refrigerant dehumidifier, the 2400 excels in environments with low specific humidity. You can start and finish the entire job with a DrizAir 2400.

- Removes up to 30 gallons a day
- Low grain refrigerant with patented heat pipe technology Rugged rotomolded housing
- Intelligent touch-pad controls
- Hot-gas bypass for fast defrost

LEAD BASED PAINT HAZARD REDUCTION ACT OF 1992 - Title X passed in 2010

In 1992, Congress passed the Residential Lead Based Paint Hazard Reduction Act. Currently, the act is enforced by the Department of Housing and Urban Development (HUD) and the Environmental Protection Agency (EPA). In brief, the act set out to regulate property sales and leases involving properties built prior to 1978, which would contain lead based paint in most instances.

The EPA and the HUD initially worked towards assisting violating companies and individuals, those that not did not adequately disclose the presaence of lead based paint to tenants or purchasers, with maintaining compliance. This leeway period ended in early 1998, and since than, the EPA and HUD, working independently and in conjunction with one another, have conducted investigations of violators on a regular basis, often targeting rental companies in large urban areas.

In essence, a consumer has the right to know about potentially dangerous environments they are considering renting or purchasing. The act requires full disclosure of the nature of a property built before 1978, which means lead paint will most likely be present. Lead paint, especially in unborn children and young children, can cause elevated blood levels tantamount to lead poisoning.

NEW EPA RRP RULE (RENOVATION, REPAIR, AND PAINTING)

IMPORTANT RULES AND REGULATIONS

The **RRP Program** is a federal regulatory program affecting contractors, property managers, and others who disturb painted surfaces.

- It applies to residential houses, apartments, and child-occupied facilities such as schools and day-care centers built before 1978.
- It includes pre-renovation education requirements as well as training, certification, and work practice requirements.

Pre-renovation education requirements:

Contractors, property managers, and others who perform renovations for compensation in residential houses, apartments, and child-occupied facilities built before 1978 are required to distribute a lead pamphlet befor starting renovation work.

Training, certification, and work practice requirements:

- Firms are required to be certified, their employees must be trained (either as a certified renovator or on-the-job by a certified renovator) in use of lead-safe work practices, and lead-safe work practices that minimize occupants' exposure to lead hazards must be followed.
- Renovation is broadly defined as any activity that disturbs painted surfaces and includes most repair, remodeling, and maintenance activities, including window replacement.

For more information, go to the EPA's website at: http://www.epa.gov.

AIR SAMPLING PRODUCTS

PCM Cassette - #AS0202

PCM 25mm air sampling cassettes are designed and manufactured to meet all applicable NIOSH, OSHA, and EPA standards.

M2 Multi-Mold™ Cassette - #AS0252-5

The M2 is patented, two-sided sampling cassette for easier and more efficient use in the field and in the laboratory. This is the first cassette to proved sampling options to field personnel. Each cassette can be used to:

- Collect two identical samples concurrently
- Collect one sample while using the other side as control

The M2 cassette is also the very first of its kind for laboratory personnel. It provides one-time preparation for two samples, pre-printed traverse marks on the collection side for standardized counting, and side-byside comparison of samples under the microscope.

BDX-II Air Sampling Pump

The Gilian BDX-II is an economical air sampling pump designed specifically for abatement and lead applications. It is a compact and rugged air sampling pump optimized for sample methods between 500 cc/min and 3000 cc/min. The BDX-II is powered by a rechargeable NiCd battery that provides up to 10 hours of operation on a single charge.

- 500-3000 cc/min
- Anti-tamper control covers · Sealed internal components
- · Rechargeable battery pack Easy calibration
- UL approved for operation in hazardous areas

For Your Convenience

Helping to take the guess work out. No where else will you find a low cost all-in-one lead removal kit where all components are disposable after use. The lead abatement items within the kit are specified from the EPA Residential Lead-Based Paint Hazard Reduction Act of 1992--Title X passed in 2010.

Each kit is designed for one lead abatement job, so order multiple kits for multiple jobs and save on shipping costs. Or order individual replacement items, as needed.

DELUXE LEAD REMOVAL KIT - ITEM #AS0500-D

Assembled for your convenience and savings, the Lead / ASBESTOS Removal Kit removes the guesswork from what is needed for you next project. Included in the Deluxe Kit are:

- (1 ea.) Duffle Bag
- (1 ea.) MSA Half Face Mask
- (2 ea.) P100 Cartridges
- (1 ea.) Disposable ventilated protective goggles
- (2 ea.) Disposable Bags
- (1 ea.) Lead Check Swabs
- (4 ea.) Alcohol Wipes
- (1 pr.) Nitrile Gloves

- (2 pr.) Disposable Black Gloves (extra backup pair!)
- (1 ea.) Next Gen. Disposable Coveralls including head and feet covers
- (1 ea.) Scrapper
- (1 ea.) Roll Lead Caution Tape
- (2 ea.) Yellow Lead Signs

Heavy Duty Canvas Duffle Bag to make transport to and from job site easier.

STANDARD LEAD REMOVAL KIT - iTEM #AS0500-S

The Standard Kit is packed in a nylon bag and includes the following items:

- (1 ea.) Nylon Bag
- (1 ea.) MSA Half Face Mask
- (2 ea.) P100 Cartridges
- (1 ea.) Disposable ventilated protective goggles
- (2 ea.) Disposable Bags
- (4 ea.) Alcohol Wipes (1 pr.) Nitrile Gloves

- (2 pr.) Disposable Black Gloves (extra backup pair!)
- (1 ea.) Next Gen. Disposable Coveralls including head and feet cover
- (1 ea.) Scrapper
- (1 ea.) Roll Lead Caution Tape
- (2 ea.) Yellow Lead Signs

Standard Kit includes Nylon Travel Bag.

Below are some additional add-ons to think about when you purchase your lead removal kit.

These include the Hepa Dustless Vacuum and the Pullman Hold 390 Hepa Vacuum. Some important things to think about when spending the money on the proper HEPA vacuum cleaner equipment are if it would help you to pass the EPA RRP rule law and will it keep you and your employees healthy.

OPTIONAL ADD-ONS

Hepa U2930 Dustless Vacuum

This Wet Dry Vacuum is specifically designed for the fine dust created by grinding, sanding and sawing.

Pullman Holt 390 4 Gal. Hepa Vacuum

Powerful 4-gallon, dry only HEPA vacuum with exceptional stability, designed for professional cleaning,

5" Electric Floating Head Grinder

For use to remove of feather paint, pivoting for ease of use.

SAFETYhouse 1-800-872-3684 1-800-872-3684 • SAFETYhouse

Features:

- Rugged 1/8" thick aluminum case
- Full width aluminum carrying handle, also doubles as tilt leg
- Brackets to hold power cord
- Uses plain paper
- Large bright red digital display
- Simple keypad selected functions
- Self calibrates on each start-up
- Available with circular chart recorder, remote alarm, or digital data download capability
- No separate or loose parts to lose

#AS0100

Tri/Mon Manometer

Designed as a digital recording manometer for carefully tracking and displaying differential pressure information.

The TRI/MON is durable, lightweight and simple to operate. Turn it on, load the paper and go to work. It is as simple as that. Many more features to serve many different applications in environmetal sites, clean rooms, laboratories and hospitals.

- "Smart" button for easy reset to factory operating parameters
- Special indicators to hilite systems functions
- · Keypad lock to prevent tampering
- Stores 7 days of data in memory
- Operating temperature range 32' - 120'F
- Simple start-up. Just turn on and load paper.
- One year full parts and labor warranty

Specifications:

- Differential pressure range: +/- 0.22 " W.C.
- Transducer range: display output limited to 0.22" W.C. due to over-pressure sensing
- Over-pressure protected with auto valve closure if the pressure is greater than 0.22 inches of water
- Accuracy of differential pressure reading: +/- 1%
- Resolution of differential pressure reading (panel display): 0.001 inch of water gauge (0.249 Pa)
- Resolution of differential recorder (printer): 0.001 inch of water gauge (0.249Pa)
- Ambient warning tone: 3.8 Hz. 80 dB at 40 inches (1m)

- Operating temperature range: 0-50°C (32° to 120°F)
- Printout interval programmed by user: Range: 4 readings/ minute to 1 reading/hour
- Differential pressure sensor transducer output range: 0-5 VDC
- Input tubing diameter: 1/8 inches ID (4.8mm)
- Input tubing length: 20 feet (60m)
- Power supply requirements: 120 VAC 0.5A 60Hz (other power options available)
- Data storage capacity: 7 days
- Options Available: Remote Alarm Assembly Circular Chart Recorder

Features:

- Real time monitoring of differential pressure and/or vacuum level
- Dual inlet ports allow monitoring between two areas
- · Programmable high and low alarm setpoints
- Extremely simple to set up and use • 30+ day internal memory stores pressure readings and alarm occurrences with a time/date stamp
- Large graphic display with white backlight shows current pressure, monitoring status and alarm settings at a glance
- Menu driven interface for easy setup
- Multiple reports available at the touch of a key
- 95 decibel audible alarm notifies workers and bystanders when containment is lost
- Thermal printer, no ink ribbons
- Printing in any position with paper contained in a protected compartment

- Print/log interval adjustable to conserve paper and memory
- Variable response rate to avoid nuisance alarms in windy environments
- Passcode protection prevents tamperin
- Automatic printout and logging of all settings changes Configuration report prints
- current settings and monitoring status for easy review View log on screen, scroll through
- entire memory contents Rugged self-contained unit includes power cord, owner's manual, 10' of hose and spare
- paper roll stored in the case Instant on screen help
- Second USB port supports PC communication for transferring job logs, real time monitoring and configuration editing
- Pressure displayed in Inches WC, Millimeters WC or Pascals

Omniguard® 4 Digital Pressure Recorder

The clear choice for monitoring and documenting Vacuum and Pressure in a containment area.

There's no AC adapter to keep track of.

#AS0050

Ideal for Asbestos. Lead and Mold abatement and Clean Room monitoring. The Omniguard® 4 utilizes state of the art pressure measurement technology to accurately monitor pressure inside a containment area. The Omniguard® 4 is a differential pressure recorder in a completely self-contained package, designed from the beginning to be extremely flexible yet easy to use. The included accessories, owner's manual, hose, a spare roll of paper and AC cord, store easily in the lid.

Sold Separately

abatement contractors.

Used worldwide by

Ledizolv® Detergent

Scientifically formulated for use in the clean-up and control of LCD hazards.

Millions of homes, schools, day care centers and other buildings contain lead-based paint and/or other sources of lead-contaminated dust (LCD). This dust is the primary cause of childhood lead poisoning, which is the leading environmental health risk to young children.

According to HUD and EPA, the best way to make a home lead-safe is to perform specialized cleaning activities on a regular basis with a lead-specific detergent.

LEDIZOLV® is THE LEAD-SPECIFIC **DETERGENT™** scientifically formulated for use in the clean-up and control of LCD hazards. Surf through this site to find how to make homes, schools, and other buildings lead-safe

distance.

RECEIVED

D-Wipe® Towels

The soft towels lift, bind and hold lead and other heavy metal dusts and take them away without smearing.

Disposable towels are generously saturated with a gentle pH balanced cleaner to quickly remove lead, heavy metal dusts, dirt, greases and oils. The soft towels lift, bind and hold lead and other heavy metal dusts and take them away without smearing. With Aloe skin moisturizers, D-Wipe towels are the portable and convenient way to clean the hands, arms, face and surfaces.

Hygromaster - Moisture Meter MMS Plus

The moisture you cannot see matters most when cleaning and restoring a property after water damage.

From hidden mold to unseen structural damage, undetected moisture damages health and property and its oversight can create liability. That's why the right moisture meter makes the difference. The GE Protimeter MMS has become the standard for the professional inspector. Those that know the oversight of hidden problems leads to dissatisfied customers, missed opportunities in restoration, and liability issues, today rely on the advanced features found in the MMS.

Features:

000

- Automatic grains-per-lb calculations for specific humidity
- Data logging with PC interface Interchangeable Hygrostick probe
- Optional low range RH probe from 1% to 40%RH

Dimensions:	7 in x 2.75 in x 1.9 in (180 mm x 70 mm x 49 mm)
Gross Weight:	10.58 oz (300 g) instrument only. 2.5 lb (.006 g) complete kit
Max Needle Depth: 0.4 in (10 mm)	
Display:	LCD
Batt. (included):	2 AA
Measuring Ranges:	Pin (% WME); 6 to 99; Non-invasive (RF) up to 3/4 in (19 mm) deep; 0 to 1000 (relative); Hygrostick (RH) nominal; 20 to 100% RH, 32 to 122°F (0 to 50°C)
Temp. Probe Range:	15 to 120°F (-10 to -50°C)
Hygrostick Data (Nominal):	30 to 40% RH (±2.5% RH); 41 to 98% (±1.75% RH); 0.5 to 122°F (-18 to -50°C) ±0.6°F (0.3°C)
Low Range RH Sensor (Nominal):	Optional MMS Plus 0% to 40% RH ±2.0%,; Temp. 32 to 104°F ±6.0° (0 to 40°C ±0.3°)
Data Storage:	Up 1,000 results w/ date and time stamp from all instrument functions

This unique Surveymaster moisture meter with two modes of operation - search and measure.

Protimeter Dual Mode Moisture Meter Surveymaster

Helps the user to distinguish sub-surface from surface moisture, essential information when trying to establish the extent and cause of a dampness problem. Surveymaster is a moisture meter that displays the moisture level values on a digital display along side a scale of color-coded lights. This digital moisture meter helps in accurate building material moisture measurement. This helps the user to map the extent of problems and monitor changes in condition precisely and reliably. The Surveymaster is the industry standard moisture meter for surveying and investigating moisture in buildings.

LeadCheck®

LeadCheck Swabs are non-hazardous and provide a rapid, sensitive and specific test for leachable lead on any surface. When AS0211 lead is detected, the swabs and/or the surface being tested turns pink or red on contact, depending on the concentration of lead present. Results are obtained in less than 30 seconds in most tests. Each kit is labeled with manufacture date, model number, serial number, and

expiration date to conform to RRP rule.

D-Lead® Test Kits for Lead Dust

D-Lead® Test Kits are ready to use, fast, simple, portable and provide immediate results. This kit will detect as little as 20 micrograms of lead and can be used to detect lead on surfaces, respirators, tools, clothing and hands.

D-Lead® Lead Paint Test Kit

- The only test for lead in paint that is both ETV Tested and EPA Recognized* for use on drywall, plaster, wood and ferrous metal surfaces
- Quickly determine if a paint sample contains less than the USEPA regulated lead limit • Test for lead and lead chromate based paints in minutes
- Small 3/16" sample required (sample tool included)
- D-Wipe® Prep Towels (included) reduce the chance of contamination of samples
- The EPA Environmental Technology Verification Program (ETV) Name and/or Logo does not imply approval or certification of this product, nor does it make any explicit or implied warrantees or guarantees as to product

grip and prolonging life.

Applications:

Why Latex Gloves?

Inexpensive and ideally suited

Latex gloves are disposable gloves made from

naturally or synthetically. Awareness of latex

allergies has led to the inclusion of non-latex

gloves as an alternative in some facilities to

address concerns about allergic reactions.

latex, a rubber product which can be produced

Latex can be sourced either naturally or synthetically.

In either case, the material provides excellent barrier

protection, preventing the transmission of viruses

and bacteria between a health care provider and

a patient. Latex is also a great material for medical

gloves because it is thin and flexible, which means

that it will not interfere with freedom of movement.

Powdered latex exam gloves, which tend to be easier

to put on. In some cases, powdered gloves may not be suitable, as the powder can sometimes cause

allergic reactions or other problems. Latex exam

gloves are also available in a wide range of sizes to

accommodate various hand sizes. The gloves are

disposed of after each patient, and they may be

changed during the course of an exam for safety.

Wearing properly-sized latex gloves almost feels

like not wearing any gloves at all, which is very

important for many aspects of medical care.

for a variety of applications.

Polyvinyl Chloride (PVC) is a thermoplastic polymer of urethane. PVC offers good abrasion resistance and is very flexible. PVC starts to soften at approximately 82°C (180°F). PVC is effective against water and most aqueous solutions, detergents, and diluted bases and acids. It only has limited chemical resistance to organic solvents.

Why Nitrile Gloves?

One of the strongest disposable gloves that addresses allergic reactions.

Nitrile gloves are a type of disposable glove made of synthetic rubber. They contain no latex proteins and offer excellent resistance to wear and tears. Nitrile gloves are more puncture resistant than many other types of rubber gloves and can be used to offer superior resistance to many types of chemicals. They are often considered to be one of the the strongest types of disposable glove and are generally safe for people who are allergic to latex.

Unlike other disposable gloves, nitrile gloves have low resistance to friction and are very easy to slide on. As with some other types of disposable gloves, however, powder such as cornstarch may be added in order to make putting on the gloves as easy as possible. Nitrile gloves come in a variety of sizes to fit all hands, from extra small to extra large. They can be made in a variety of textures, cuff lengths and thickness.

These gloves are popular for their high degree of flexibility and superior solvent resistance. They are resistant to many oils and some acids, making nitrile gloves a good choice for many manufacturing environments. Nitrile gloves should not be stored under excessive light or heat, however, as that can make the rubber disintegrate more rapidly.

These garmets are strong, fluid resistant and breathable.

SafeGard® 76 fabric consists of three layers of pliable, comfortable polypropylene. The two outer layers are made with no-nonsense, spunbonded filaments that stand up to tearing and abrasion; the inner layer is of meltblown polypropylene microfibers that filter out potentially harmful particulate matter and liquids. Breathability is the bonus; air and water vapor pass through for superior wearer comfort. SafeGard® 76 SMS is a 57 g/in2 fabric with meltblown middle layer and is rugged, triple-stitched, with serged seams to save on renting, laundering and replacing cloth garments. Not recommended for use near heat, flames or in flammable sites.

- Three ply material consisting of one layer of Meltblown polypropylene bonded between two layers of spunbound polypropylene.
- These garmets are strong, fluid resistant and breathable. Providing maximum comfort and durability, providing optimal mix of protection and comfort at an affordable price.
- · Typical applications include general maintenance, janitorial services, food processing, construction and any nonhazardous job where you need to keep clean.

PROTECTIVE APPAREL

Tyvek°

Tyvek® Coveralls

With Tyvek® coveralls you don't have to compromise.

That's because Tyvek coveralls deliver the best balance of protection, durability and comfort. Made using a proprietary manufacturing process, Tyvek coveralls feature an inherent barrier. So, unlike other protective apparel fabrics, which have either a film or coating that can be easily scratched or worn away, Tyvek coveralls provide barrier through the entire fabric.

DuPont™ Tyvek® provides the best balance of protection, comfort and durability. Made of DuPont's unique, non-woven technology for comfortable, inherent barrier protection against dry particulate hazards and light liquid splash. Set-sleeve pattern for greater arm movement. Stops sub-micron particles better than reusable garments, even after abrasion.

Standard Coverall

- Tyvek #14120 Comfort fit design based on extensive wearer input to provide our most comfortable garment design that: enables a greater range of movement while stretching and bending, provides a more tailored fit, offers reinforcement in high stress areas for fewer blowouts, utilizes a longer zipper for easier donning and doffing and an elastic waist to better position the garment.
- Laydown collar
- Open wrists; Open ankles

EXTRA PROTECTION

A **BOUND SEAM** has each of the raw edges of its seam allowances enclosed in a strip of fabric, lace or net 'binding' that has been folded in half lengthwise. This provides extra protection.

Coveralls

PROTECTIVE CLOTHING

DuPont™ Tychem® QC

Cost effective protection from liquid splashes and dry particulates.

A comfortable, lightweight, and durable fabric, DuPont™ Tychem® QC utilizes the strength of DuPont™ Tyvek® fabric and a polyethylene quality coating, making this one of the more comfortable and protective garments available. Tychem® QC is used for light splash protection in a variety of industrial environments, including petroleum refining, pulp and paper manufacturing, food processing, chemical processing, and pharmaceutical manufacturing 1 Tychem® QC provides excellent resistance against biohazards such as blood, body fluid, and viral contaminants, and passes ASTM F1670 for blood penetration and F1671 for viral penetration.

Visibility When working in hazardous conditions, the color and visibility of protective apparel can greatly affect the overall safety of the worker. When workers wear high-visibility colors, it improves how well they are seen and distinguished from the background. Obviously, safety is enhanced when workers can clearly see coworkers. The Tychem® QC yellow color is often a preferred choice because it provides contrast across a wide range of natural backgrounds.

KLEENGUARD A60 Bloodborne Pathogen & Chemical Splash Protection

The patented three-layer fabric construction feature a middle layer of microporous film that allows heat and sweat vapor to escape, protects against many dry particulates and liquids, even under pressure. Passes ASTM F1670/1671 testing for penetrations of blood, body fluids and blood-borne pathogens. Thicker outer layers provide better protective barrier against tearing and abrasion.

espirator facepiece or system must be chosen based on the airborne concentration and the necessary assigned protection factor.

**Nuisance level refers to concentrations below the Occupational Exposure Limit (OEL) or other applicable government regulations, whichever is lower.

If you are uncertain of the concentration levels of contaminants or recommended levels of respiratory protection, contact the 3M Technical Service Helpline at 1-800-243-4630. It should not be used as the only means for selecting a respirator. Details regarding performance and limitations are set out on the respirator package and User Instructions. Before using any of these respirators, the wearer must read and understand the User Instructions for each product.

Advantage® 3000

Enhances worker performance through a design that allows even lower breathing resistance, a standard nosecup that reduces fogging and a soft, pliable silicone facepiece. A scratch resistant, wraparound lens engineered to be optically correct eliminates distortion for superior visibility and peripheral vision. Advantage 3000 uses the same cartridges and filters as the Advantage 200LS respirator. Designed to meet the National Institute for Occupational Safety and Health (NIOSH) and EN standards. **Suggested Applications:**

Agriculture

- Asbestos
- Abatement

- Mining Nuclear
- Oil and Gas Chemical Paper & Pulp
- Hazardous
- Construction • Electric Utility
- Spray Painting Materials Welding

Advantage® 4000

Now there's a revolutionary one-mask system that can adapt to a wide range of respiratory applications. Available in singleport and twin-port models, this remarkable facepiece works with air-purifying respirators, supplied-air respirators and powered airpurifying respirators. Simply choose the adapter and components that best fit your needs and lock into place.

NORTH

FULLFACE-MASK RESPIRATORS

Cartridges, Filters, and Battery Chargers Sold Separate.

#RF7600

7600 Series

Designed to provide eye, face and respiratory protection while providing optimum comfort.

- Offers more than a 200° field of vision and the hard coated full face polycarbonate lens protects the wearer's eyes and face against irritating gases, vapors and flying particles.
- Polycarbonate lens also features optical properties similar to the Norton 180®
 Protective Spectacle to minimize distortion and astigmatism.
- NIOSH and MSHA certified.

#RF5400

- Soft, pliable full facepiece seal offers a secure fit.
- Hardcoated, polycarbonate lens is scratch resistant, provides a wide field of vision, and protects against flying partcles.
- · Oral nasal cup reduces fogging.

Cartridges, Filters, and Battery Chargers Sold Separate.

HALF-MASK RESPIRATORS

#RH7700

7700 Series

North 7700 Half Mask face piece is made of soft, hypoallergenic silicone. Made of silicone and conforms to a worker's face better than rubber.

- Low profile of the North 7700 half mask gives workers a wide field of vision and room for protective eye wear.
- Its low inhalation and exhalation resistance makes breathing easier, leaving more energy for production.
- NIOSH and MSHA certified.

5400 Series

5500 Series

#RH5500

The North 5500 Half Mask Respirator combines the comfort and design of the popular 7700 series with the low cost and convenience of a disposable one.

- Extremely soft and non-allergic elastomer for overall comfort and fit.
- Contoured sealing flange helps eliminate pressure points on the face. Low dead air space eliminates rebreathing of exhaled air.
- The direct cartridge to facepiece seal minimizes the need for replacement parts.

Ask Us About Accessories & Replacement Parts

A MUST-KNOW GUIDE FOR RESPIRATORS

Respirators are an invaluable weapon in protection against hazards caused by airborne contaminants. But before you go and waste your money on randomly chosen respirator masks, it's important to get familiar with their various types and designation.

Types to Consider

There are different types of respirators readily available for purchase, and it is important to know which one will fit and suit your needs best. Let us start with a quick overview:

N95 Respirator - This is a disposable type, where a stiff fiber cover is placed over the mouth area and the nose. It allows you to breath in clean air yet it filters out the chemicals. For comfort, a metal band found on the bridge area of your nose is bendable so you can adjust it to your face.N95 respirators are best suited for jobs that include dusting, sweeping, bagging etc.

Notable Features and Tips: In case you are allergic to Latex, look for a mask where it says 'hypoallergenic'. If you have long hair, make sure that the mask has gentle head straps.

Half Face Respirator - This type covers the mouth and the nose but it is a bit wider than the N95. Think of it as additional protection to the cheek area that can also filter out many more chemical types. You can still see clearly, although you might need to wear protective goggles as well. It has two filter cartridges to supply you with fresh air so it will

not feel warm inside and will not cause additional perspiration. Since half face respirators are usually of standard size and designed to fit most people, you may not find their size specification.

Notable Features and Tips: Half face respirator of high quality is one whose filter cartridges do not obstruct your view. The cartridges should be low-profile ones. If you are wearing a long beard, it is strongly recommended that you trim it to ensure optimal protection.

Full Face Respirator - As the name implies, this is set offering a full face protection, which is very important if you will be working with harmful elements that could impair your vision. With this, you no longer need additional protective goggles since it is built in already. Full face respirators can usually be divided into two types: mechanical and electrical. The electrical ones are also known as supplied air respirators, and are suited for jobs in environments overwhelmed with dangerous chemicals.

Notable Features and Tips: Inadequate seal of the respirator nose cup may result in lens fogging. Make sure the manufacturer of the mask you buy had this issue taken care of.

3M 8577 P95 Respirator

Protects against nuisance levels of organic vapors such as solvents, degreasers and resins and is an excellent choice for work settings that involve heat, humidity and long wear periods to help against oil and non-oil based aerosol particles.

Suggested Applications:

- Foundry operations, undercoating, lab settings, agriculture, petrochemical operations.
- Additional protection against Bird Flu / Avian Influenza.

This respirator is a breakthrough in comfort and convenience. This threepanel respirator with innovative design

is uniquely designed to help provide

comfortable, reliable worker protection

Suggested Applications:

 Protection against solids, liquids or non-oil-based particles in a wide range of industrial and clean-room applications.

against non-oil based aerosols.

- Textile operations.
- Dry chemical handling.
- Construction.
- Surface preparation. 20 per box. Sold per box.

Particulate Respirator

w/Exhalation Valve Ideally suited for work settings

that involve heat, humidity, or long periods of wear. Designed for protection against solids, liquids or non-oil-based particles in hot and humid environments. The 3M™ Cool Flow™ Exhalation Valve helps ensure comfort.

Suggested Applications:

- General maintenance
- Surface preparation
- Construction Laboratories
- Quarrying and mining
- Engineering Agriculture 10 per box.

3M 8271 P95

Suggested Applications:

- · Solids from processing minerals,
- Liquid or oil based particles
- · Grinding, sanding, sweeping, other dusty/oily operations

Gerson Smart-Mask Sapphire - #RD2130-BL

Larger more flexible surface area than traditional molded

than traditional molded respirators for improved comfort!

Gerson Smart-Mask N95 - #RD2140-BL

N95 Particulate Respirator with Exhulation Valve-Blue

Patented design allows a cool wearing experience while

giving the wearer an opportunity to speak unmuffled Soft,

adjustable nosepiece and inner layer deliver greater comfort

Comfort MAXXTM Super Valve provides noticeably superior

Rugged blue denim look and new crush-resistant industrial

respirators for a better fit! Lower breathing resistance

N95 NIOSH Approved Particulate Respirator.

Premium **Particulate**

Designed for a higher level of respiratory protection. Adjustable cloth straps and soft foam nose cushion makes this dust mask a comfortable fit while the featured exhaust valve reduces breathing resistance and hot-air build up for all day comfort.

Suggested Applications:

• Suitable for most welding applications.

10 per bag. 6 bags per case. Sold per bag.

Dirt Dawas

325 Westtown Road, Suite 14 West Chester, PA 19382 Order Toll Free: 1-800-872-3684 Order by FAX: 1-610-436-4983 Order Online: www.thesafetyhouse.com

SHIPPING & DELIVERY

Currently we offer shipping from our West Chester, Pa location to all 50 states in the US. All shipping and handling rates are estimated on dollar value of the order, and are strictly estimates. Once your order has been shipped, actual freight charges will appear on your Shipping Confirmation. Our shipping partner is UPS and we offer four shipping options on most orders: UPS Ground (our default method); UPS 2nd Day Air (delivered by end of 2nd business day); UPS Next Day Air Saver; UPS Freight (common carrier)

Ground Service: We ship UPS ground orders within 1 day of your order date and usually ship same day if we receive your order before 3pm EST, exceptions apply due to non-stock items and manufacturer stock levels. (95% of orders ship within 1 day). See the table below for average delivery times for your state (note: these are averages and a single delivery could get there slower or faster.

Next Day/2nd Day Air Service: Get your order there fast! Orders received Monday - Friday (shipping days) before 3 p.m. - EST will be shipped out same day of your order, some exceptions apply. Orders received after 3 p.m. - EST will be shipped next day from warehouse.

Freight Service: On large volume/weight orders, we ship UPS Freight on shrink wrapped pallets. Orders typically ship within 1 day of order date if we receive your order before 3 p.m. - EST, some exceptions apply. Rates will be calculated and appear on your Shipping Confirmation.

ORDERING & PAYMENT

TheSafetyhouse.com Guarantee: We guarantee your 100% satisfaction. We will match anyone's advertised pricing on exact product. We will replace, credit, or refund your order if your are not completely satisfied.

Personal Assistance: Our qualified representatives are available Monday-Friday, 8:00am-6:00pm, 1.800.872.3684.

Large Volume Pricing: Need a quote on large orders? Defintely take advantage of our volume discounts. Contact our reps.

Non-Stock Ordering: Don't see what your looking for? You have access to all major manufacturers and suppliers.

Please contact us for special ordering.

Customized Products: We do offer custom ordering on select products: hard hats, safety glasses, and more. Our representatives are standing by to help you.

Payment, Pricing & Promotions: We accept Visa, Mastercard, American Express and Discover.

PRODUCT DAMAGE & RETURNS

If a product purchased is defective or not to Buyer's satisfaction, Buyer can return the product in its original condition within 30 days of receipt. If you receive damaged products; please refuse the products upon original delivery from shipping carrier. If damaged products are accepted from the carrier, such damage should be noted on the carrier delivery record. Please save the product and the original box and packaging and notify TheSafetyhouse.com immediately to arrange for a carrier inspection and a pick up of damaged products. Please notify TheSafetyhouse.com Customer Service at info@thesafetyhouse.com of damaged products WITHIN THE FIRST 10 DAYS of receipt. Timely receipt of this information is necessary for TheSafetyhouse.com to file a damage claim.

Online: Please use My Account tools at www.TheSafetyhouse.com or contact TheSafetyhouse.com Customer Service at info@thesafetyhouse.com, to obtain a Return Authorization (RA) before shipping products back to TheSafetyhouse.com. This will expedite and help ensure the proper action or credit upon processing. In order to expedite a return, please have the following information on hand when requesting an RA number: Customer number, invoice number, reason for return, action to take (replacement/repair/return/credit) and whether the box has been opened or is manufacturer sealed. Click My Account to request an RA online.

Returning: Please return all products 100% complete including all original manufacturer boxes with the UPC code and packing materials, accessories and any other documentation included with the original shipment. RA approval is contingent upon, among other things, the products being 100% complete. Customer is responsible for shipping charges to TheSafetyhouse.com distribution center for all products being shipped for return, exchange or replacement. Products exchanged or replaced will be shipped by TheSafetyhouse.com to Customer, at TheSafetyhouse.com expense, using the same shipping method as was used by Customer to ship the original products back to TheSafetyhouse.com.

Customer Responsibility: Customer is responsible for all risk of loss and damage to products being shipped for return, exchange or replacement. Please fully insure return shipment in case of loss or damage. Please use a carrier that is able to provide you with proof of delivery such as UPS, Federal Express or Airborne Express. This is for your protection as well as to ensure quick action on your return. Return guidelines vary by manufacturer. Please contact TheSafetyhouse.com Customer Service at info@thesafetyhouse.com for details

Return shipping address:

Call 1-800-872-3684 for address.

Failure to return a product within the applicable return period will be deemed to be an acceptance of the product.
